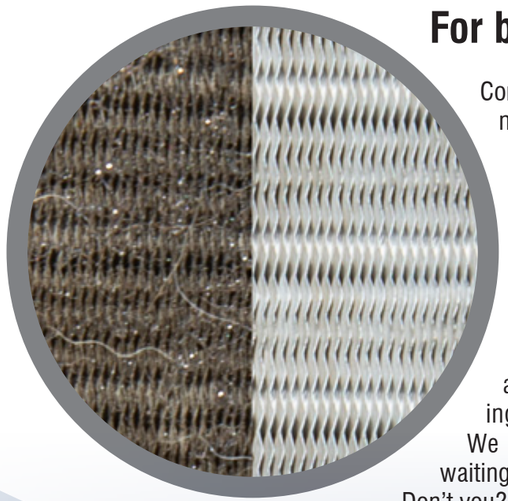
Why Hydro-Balance?

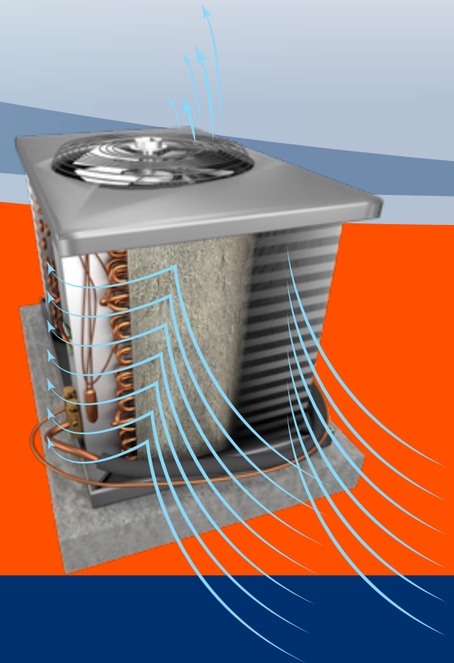


For better results, get a better coil cleaner.

Consider this - the majority of the cost for inferior products is shipping, not the active cleaner ingredients themselves.

You've heard it before and it's still true – you get what you pay for. It's the same with coil cleaners. Manufacturers of inferior products dilute their cleaners with as much water as they can get away with. The price you pay may seem low – but not when you consider what you are buying isn't cleaning ingredients – it's water!

At Hydro-Balance, we have a more sensible (and we feel honest) approach. We formulate our cleaners with the amount of active ingredients necessary to get the job done – in one application. We figure our customers have more to do than stand around waiting for a coil cleaner to work after the second or third application. Don't you?



DIRTY COILS—THE ENEMY OF THE HVAC SYSTEM CREATES POOR AIRFLOW WHICH CAN LEAD TO POOR SYSTEM FUNCTION AND MECHANICAL BREAKDOWN. GET HYDRO-BALANCE COIL CLEANERS BECAUSE RESULTS MATTER!
