DANGER: Causes skin irritation. May cause cancer. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects. Keep out of reach of children. For professional use only.

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist, vapors, or spray. Wash hands and face thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves, protective clothing, and eye and face protection. Avoid release to the environment.

FIRST AID: IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell. IF exposed or concerned: Get medical advice/attention. Collect spillage.

Store in a well-ventilated place. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

This product is designed exclusively for industrial and institutional use by trained personnel. This product is sold as is and the manufacturer makes no warranty, express or implied, of merchantability, fitness for a particular purpose or otherwise.

LEAVES NO FILM

NON-CONDUCTIVE

A highly concentrated solvent designed to lift away dirt, grease, oil and grime from refrigeration and air conditioning condenser coils. Cleaning is quick and effective. Ideally suited for use on condenser coils where water clean-up is a problem.

NOTE: Do NOT allow HY-SOL to contact polystyrene foam. Immediate damage will occur. This product may affect certain plastics commonly used for drain pans and other components. Do not allow HY-SOL to remain in contact with plastics. Wipe immediately with a cloth or paper towel. Test plastics in an inconspicuous area before use.

DIRECTIONS FOR USE: Use only with adequate ventilation. Disconnect power to equipment. Place rags behind and under coil area being cleaned to collect grease and wet soil that is removed. Spray or brush generously over the surface to be cleaned until completely wet. Allow the solvent to set for a minute, then wipe or rinse off with a second application.
