Freeze Protected to 0°F

Part #	Product	QTY	Size
H-RG32	Fluorescent, Spray Type	12	1 32 oz. Spray Bottle
H-RG01	Fluorescent, Spray Type Refill	4	1 Gal Bottle

Use to pinpoint both tiny slow leaks and larger faster leaks from any pressurized gas system. Tiny leaks result in large bubbles and faster larger leaks are indicated with a stream of bubbles. Its fluorescent formulation assists with leak detection under black light. Fluorescent Bubble Up Spray-Type is freeze protected with non-toxic, propylene glycol for added safety when compared to products made with ethylene glycol.

Directions For Use:

Adjust spray nozzle to desired spray pattern and coat all surfaces suspect of leakage. Within seconds telltale bubbles or foam will pinpoint any leakage. Spraying surface with water will reactivate solution.

Non-Toxic • Non-Clogging Biodegradable

WARNING: Causes mild skin irritation. Causes serious eye irritation.

FIRST AID: Wash face, hands, and any exposed skin thoroughly after handling. Wear eye and face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If skin irritation occurs: Get medical advice/attention.

Dispose of contents and container in accordance with all local, regional, and national regulations.

Contains [CAS]: Propylene glycol [57-55-6], ammonium laureth sulfate [67762-19-0].
